Profile

DevOps Engineer & Tech Lead with 8+ years spanning CI/CD pipeline design, test automation (QA), industrialization and operation of cloud-native infrastructure for banking and enterprise environments (Worldline, Societe Generale Morocco, HPS, Groupe Rocher). Dual DevOps and Test QA Management expertise: Jenkins, GitLab CI, GitHub Actions, Kubernetes, Helm, GitOps (ArgoCD/Flux), Terraform, Ansible on one side; test strategy, Robot Framework, Playwright, Cypress, Selenium, JMeter, Postman and QA-in-pipeline on the other. Team leadership, a clear local -> GitHub -> CI/CD -> Cloud delivery flow, -70% manual work, -40% deployment time, -60% production bugs. Trilingual FR/EN/AR.

Technical skills

CI/CD : Jenkins, GitLab CI/CD, GitHub Actions, multi-stage pipelines, canary/blue-green, Groovy shared libraries

Test & QA : Test strategy, Robot Framework, Playwright, Cypress, Selenium, JMeter, Postman, QA-in-CI/CD, QA team management

GitOps & Containers : ArgoCD, Flux, Docker, Kubernetes, Helm, K3s, Harbor, private registries

IaC & Cloud : Terraform, Ansible, Pulumi, Vault, AWS, GCP, Azure, Hetzner, OVH

Observability : Prometheus, Grafana, ELK, Loki, Datadog, alerting, SLO/SLI

Security & Languages : DevSecOps, SonarQube, Trivy, PCI DSS ; Python, Go, Bash, PowerShell, Groovy, TypeScript, Java

Professional experience

ALTEN — Rabat

Jun 2024 — Present

Senior DevOps / Automation & QA Tech Lead

- WORLDLINE (OMS) — DevOps/QA Tech Lead: Jenkins & GitLab CI pipelines (XMLCONV, BWB, FileNet).
- SAHAM BANK (ex Societe Generale Morocco) (Manor) — Monitoring team lead / Product Owner.
- Docker containerization, Kubernetes/Helm orchestration, HA banking environments.
- Multi-environment pipelines (Dev/Staging/Prod): build, tests, packaging, rollbacks.
- Led 8 engineers, -40% deployment time.
- Robot Framework (XMLCONV, ISO 8583), Postman/REST Assured, JMeter load.
- 8 Grafana/ELK dashboards, -70% incident detection time.

WISEO — Casablanca (Groupe Rocher)

Sep 2023 — Apr 2024

Senior DevOps / Cloud Consultant

- GitLab CI & Jenkins pipelines for 12 Spring Boot apps on Kubernetes.
- 90% test/deploy flow automation (Ansible, Docker, K8s), -70% manual.
- Terraform + Ansible provisioning (multi-environment AWS).
- 15 ELK dashboards, +80% visibility; JMeter load (3000+ users).

SYLOB (FORTERRO)

Aug 2022 — Sep 2023

Senior DevOps & QA Engineer

- Full CI/CD chain (Docker, K8s, GitLab CI, Ansible, Terraform/AWS) — 100% automated.
- Cypress & Robot Framework tests (85%), -60% bugs; Postman/SoapUI API (2M+ tx/day).
- Multi-environment deployment, -35% post-deploy incidents.

HPS (Hightech Payment Systems)

Sep 2021 — Aug 2022

DevOps / Test Automation Engineer — Payments

- Jenkins pipelines for PowerCARD (ISO 8583); PCI DSS (secrets, RBAC, hardening).
 - Robot Framework (XML/payment flows, 5 banks, 1M+ tx/day); Postman/SoapUI.
 - 200+ critical incidents resolved (98% SLA).
-

Education

Computer Engineering — UIR, Rabat (2018-2021)

Engineering School ECAM Louis de Broglie — Bruz, France (2012-2014)

Engineering School EFREI — Villejuif, France (2010-2012)
